10<sup>th</sup>  
Anniversary

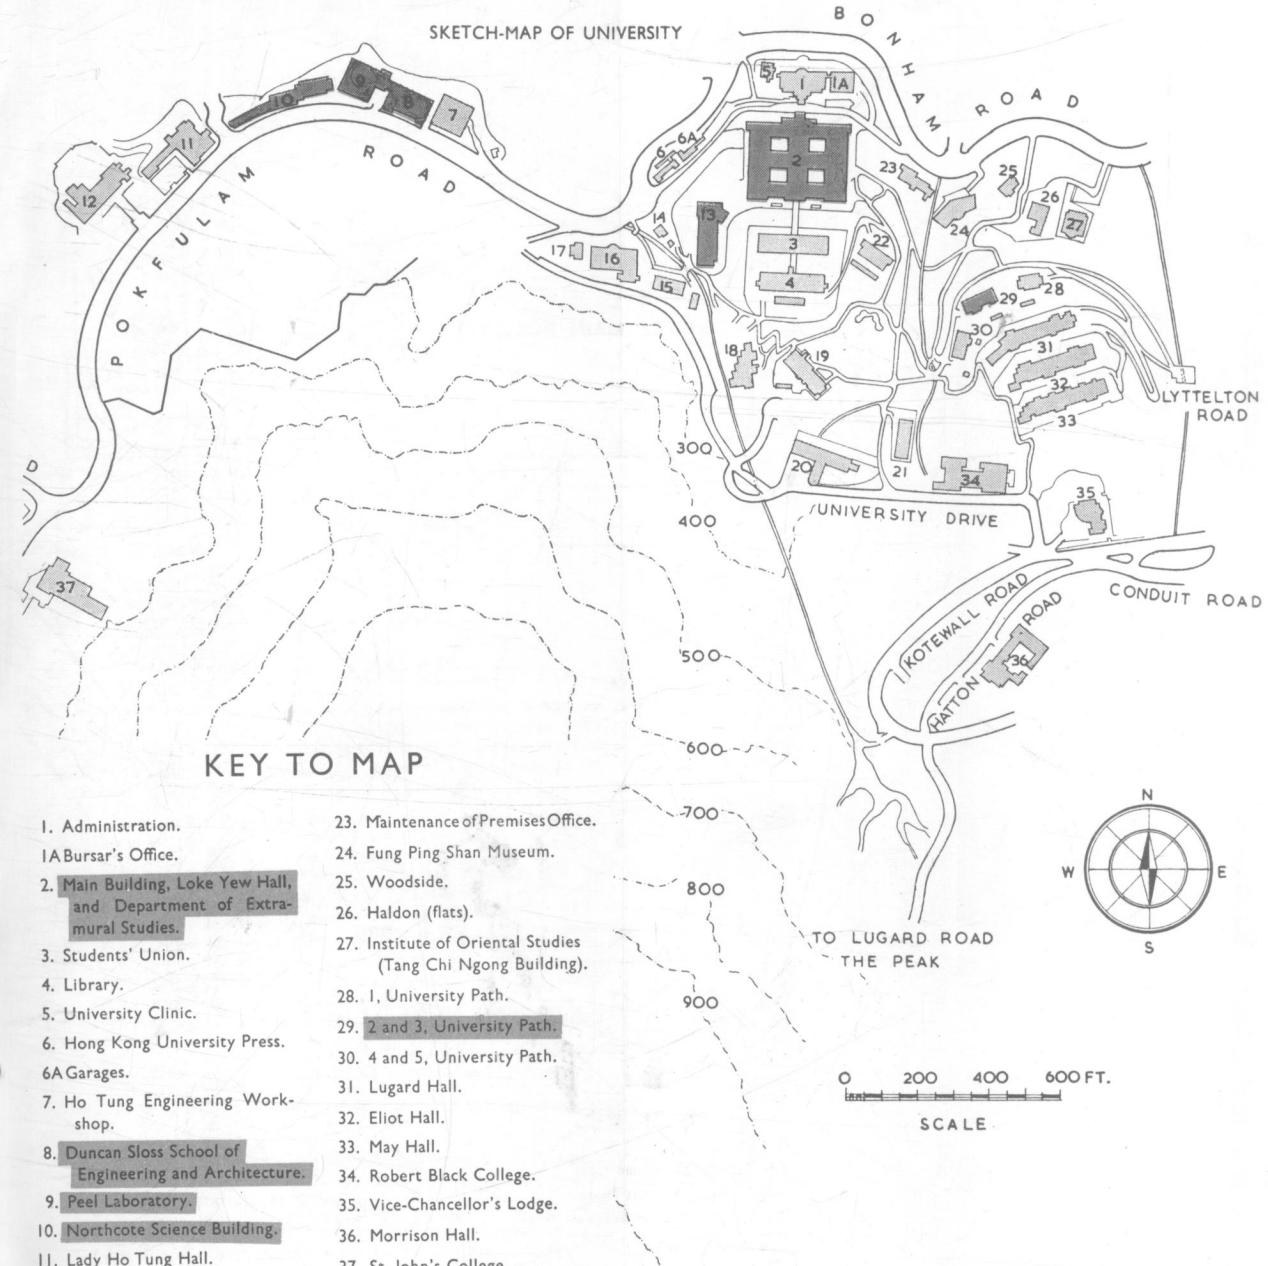

## *A Message from the Vice-Chancellor*

This session marks the tenth anniversary of the opening of the Department of Extra-Mural Studies. In the decade of its existence the Department has forged firm links between the University and the public outside its walls. By providing a wide range of courses, which have attracted students from all walks of life, the University has been able to help meet some of the varied needs of the Hong Kong community, which in turn has had new opportunities of learning more of the University and its varied activities.

May the Extra-Mural Department, in the years to come, continue to grow and develop in the tradition it has already established.

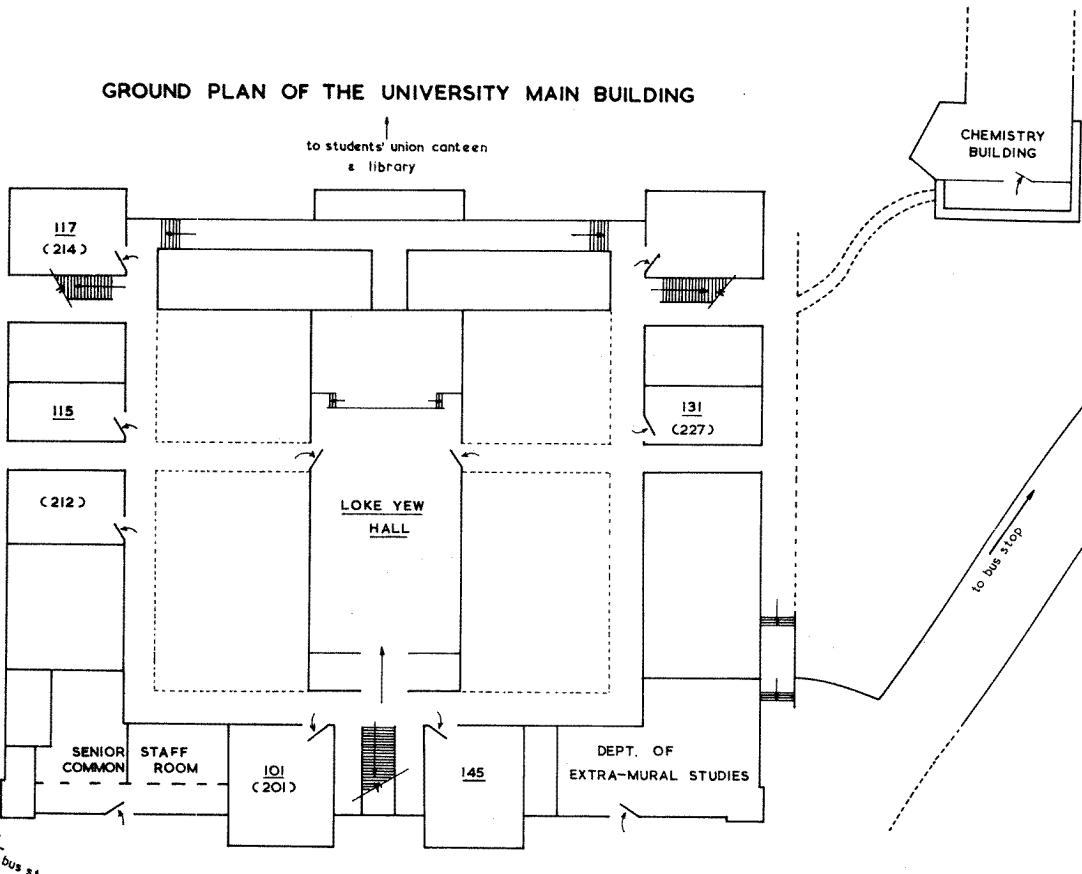

*Kenneth Roberts.*

## PROFESSIONAL AND VOCATIONAL COURSES

The Department, by special agreement with the *Chartered Institute of Secretaries, London*, acts as local examiner for the four subjects in their Intermediate Examination, namely, Economic Theory, Accounting, General Principles of English Law and English. This "Intermediate Sessional Examination" will be held in May each year. Successful Candidates will then be recognised by the *Chartered Institute of Secretaries, London*, as having satisfied their Intermediate Examination requirements. However only registered students of the *Chartered Institute of Secretaries* who have enrolled for and attended 75% of each of the above four courses, organised by the Department of Extra-Mural Studies, are eligible to sit for it. The purpose of this arrangement is to enable the course syllabuses and the examination papers to be more closely related to local conditions; the questions are set and examination papers are marked by the tutors who lecture on the subjects. Both the examination questions and the papers are sent to the *Institute* for moderation and approval of results.

The Department also offers other professional and vocational courses which are specially designed to follow the syllabuses of the various professional examinations. These professional examinations are the *Chartered Institute of Secretaries* Intermediate and Final Examinations; the *Association of Certified and Corporate Accountants* Intermediate and Final Examinations; the *Corporation of Secretaries* Intermediate and Final Examinations; the *Association of Incorporated Accountants* Intermediate and Final Examinations; the *Royal Institute of Chartered Surveyors* First and Intermediate Examinations; the *Solicitors'* Parts I & II Qualifying Examinations; the *Institute of Bankers* Parts I & II Examinations.

The Department offers a Librarianship Certificate Course in cooperation with the *Hon. Kong Library Association*, preparing candidates for the *United Kingdom Library Association* Part I Examination.

In addition the Department offers London LL.B. External Degree courses whereby, through special arrangement with the *University of London*, qualified persons may study for the London LL.B. External Degree after office hours and over a shorter period of time than hitherto possible (that is, in three years instead of five).

Courses designed to form part of the academic training in Housing Management are also offered.

All the above professional and vocational courses are open to all interested, but those wishing to sit for the various examinations should make their own arrangements unless specified otherwise and should ensure beforehand that they have the necessary entry qualifications.

The Department welcomes the opportunity to cooperate with local organizations, and professional institutions to arrange special professional and vocational courses which meet the needs of Hong Kong.

A Message from  
Mr. Gerald Moore, the first  
Director of Extra-Mural Studies,  
Hong Kong University

It is strange to think that it is now ten years since the start of extra-mural work in Hong Kong. Its growth since then has certainly justified our bravest dream of 1956. The aim then was to create a movement in adult education which might match the energy and eagerness of the surrounding atmosphere. So far as I can judge, this has now been achieved, and the work of the University among the adult population has become a fully recognized and accepted feature of the Hong Kong scene. However, no such activity can ever rest on its achievements. It must be always on the move, always looking for fresh opportunities and challenges in the society around it. I am confident that you in Hong Kong will meet the coming ten years as effectively as you mastered the first.
