Managing HKU Author Reputations, Enhancing HKU’s Reputation

David Palmer
Scholarly Communications Team Leader
The University of Hong Kong
Digital Presence, Digital Shadow

“For the first time, the amount of digital information generated about people surpasses the amount they create themselves”.

- Internet Footprint
- Findability
- Identity exposure, disclosure
Online Reputation Management

- Cybervetting

- One bad apple...
Online Identity Management (OIM)

Improving quantity & quality of traffic to sites that have content related to a person, cf. Search Engine Optimization (SEO)

Ignore?

- Previously, lost in anonymity
- Now,
  - Search engine index & page rankings
  - Any detail retrieved, in almost real time
Meanwhile,

Reputation & identity of the institution:
- University rankings
- RAE
- Peer Review
- Parent’s choice of school for child
- Recruiter’s choice
- Media spokesmanship
- Collaborative partnerships
- Contract research undertaken
- Funding received
- Etc.
The Reputation of the University?
Knowledge Exchange

- To make highly visible HKU researchers and their research
- To promote KE between HKU and its community
  - Number of research outputs in OA
  - Download counts
  - Number of collaborative researches
  - Number of contract researches
  - Number of media contacts
  - Etc.
The HKU Scholars Hub

The HKU Scholars Hub is the institutional repository of The University of Hong Kong. It seeks to collect the intellectual output of HKU and make it available to the widest possible audience. Records are made in the Hub for items that are fulltext open access, or for URLs that hyperlink to the same.

Quick search of The Hub

Search the author, title, abstract and series fields.

Search

For phrase search, please use quotation marks, for example, "Wann, John", or "Behavior Therapy".

Account creation

Publication lists uploaded, from HKU Research Output System
  • First in the world to do so

  • btw, also first in world to import Scopus & ResearcherID metrics into author profiles
Web Services to Integrate with Workflow

Institution automatically creates RID profiles

- Unique identifier for each researcher
- Researchers maintain control of information and privacy
- Current updated Web of Science citation counts into institutional repositories and systems

Updated citation counts, profile and publication data flow into institutions
