Searching the Author Identifiers Field

Enter one or more ResearcherID numbers or ORCID identifiers to search the Author Identifiers table within a Full Record. For example,

- Entering **A-1009-2008** finds all records of publications that appear in this person's publication list in ResearcherID.com.
- Entering **0000-0003-3768-8390** finds all ORCID records.

Do not use a wildcard (* ? \$) in your search query as the system may return unpredictable results.

Full Record

After you perform your search, go to the Full Record page to check the Author Identifiers table. The table displays:

- The RID numbers (if available) of all authors found by the search who have registered with ResearcherID.com. The hyperlink takes you to the author's Profile in ResearcherID.com where you can view all the records in the author's publication list.
- The ORCID iD (if available) of all authors who are currently associated with a ResearcherID account.

ResearcherID Examples

- B-9809-2012
- E-5323-2012
- C-5128-2011

ORCID iD Examples

- 0000-0001-6298-2335
- 0000-0002-6991-3743
- 0000-0003-3768-8390

About ORCID®

The Open Researcher and Contributor ID (ORCID, Inc.) is a non-profit organization that aims to solve the author/contributor name ambiguity problem in scholarly communication by creating a central registry of unique identifiers. These identifiers can be used within various systems you may interact with in your professional research workflow, including manuscript submission.

ORCID

➤ Open Researcher & Contributor ID

The problem

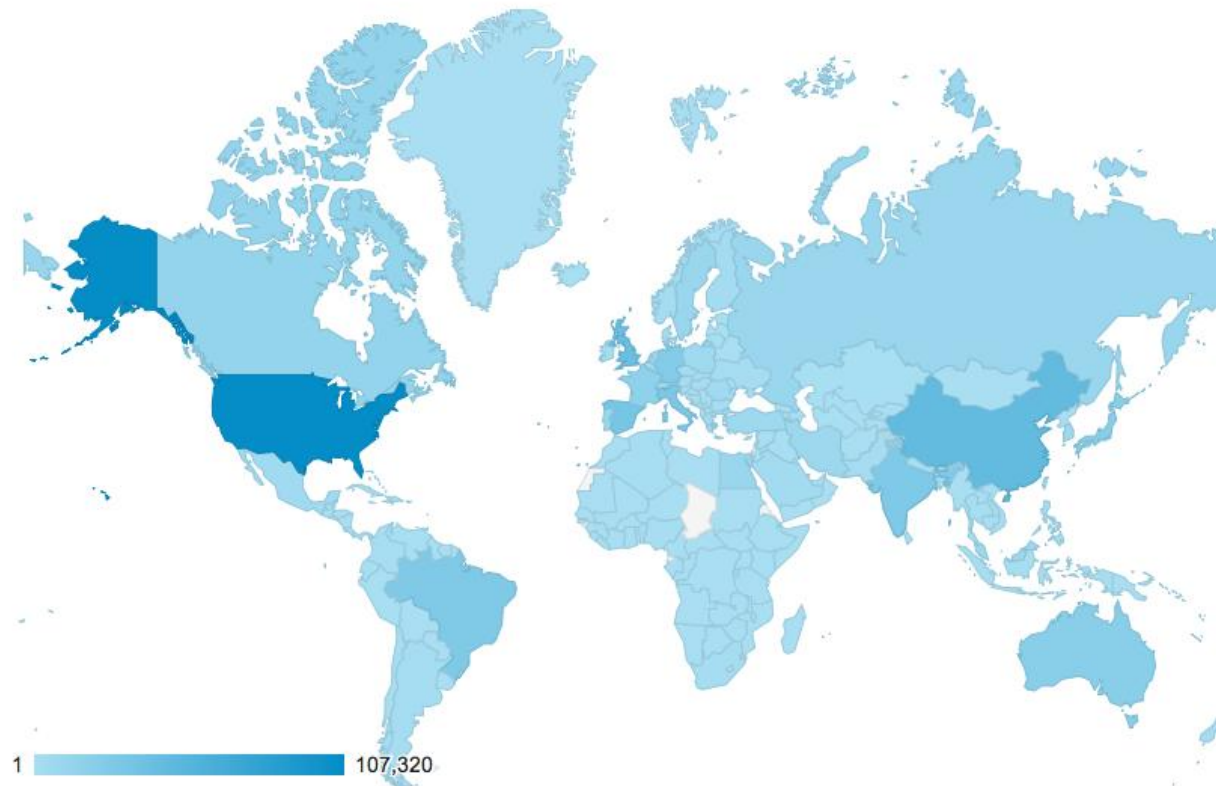

The research community has lacked the ability to link researchers with their professional activities.

As a researcher, you want to

- ✓ **ensure your work is discoverable** and **connected to you** throughout your career;
- ✓ **minimize the time** you spend entering repetitive data online; and
- ✓ **eliminate name ambiguity**, distinguishing you from other researchers and ensuring proper attribution.

How can ORCID help?

ORCID provides you a unique and persistent personal identifier that connects you and your research activities throughout your career.

Open, non-profit, community-driven organization

Website and registry localization for multiple languages in process

More than **430,000 iDs** issued to date

Registry use is **international**

Connect your ORCID iD

IMPORT RESEARCH ACTIVITIES

ORCID has been working with many member organizations to make it easy to connect your ORCID iD, and import information from their records. Choose one of the imports wizards to get started.

Scopus to ORCID

Import your Identifier, profile and publications. The wizard helps you find the correct Scopus profile and to confirm your publications. You can then import the identifier and list of publications into ORCID. Any changes you make will be submitted to the Feedback team to update your Scopus profile.

CrossRef Metadata Search

Search CrossRef's comprehensive metadata on journal articles, conference proceedings and monographs. Easily add search results to your ORCID profile.

Don't see what you are looking for?

2. Connect your ORCID iD: manually add works

UPDATE WORKS

We've found publications with your name in the CrossRef database. Click to add your works to your record.
Also see [Import Research Activities](#)

SEARCH AND ADD **ADD MANUALLY**

Add manually

Some of your works may not be included in the search results. You can add them manually here.

2. Connect your ORCID iD: link to other identifiers

RESEARCHERID THOMSON REUTERS

ORCID

Did you know you can associate your ORCID ID with your ResearcherID account?

I would like to create an ORCID record. The Open Researcher and Contributor ID (ORCID, Inc) is a non-profit organization that aims to solve the author/contributor name ambiguity problem in scholarly communication by creating a central registry of unique identifiers. These identifiers can be used within various systems you may interact with in your professional research workflow, including manuscript submission, etc.

I already have an ORCID record. By creating an ORCID you will be able to link your ResearcherID account with this centralized registry. Learn more about [ORCID](#).

No, thank you. If you choose not to get or associate an ORCID, you can do it at a later time.

[Continue](#) [Remind Me Later](#)

© COPYRIGHT 2012

Associate your
ORCID iD with
ResearcherID

ORCID

You have an ORCID associated with your ResearcherID. Data can be exchanged between your ORCID and ResearcherID accounts. [More information](#)

What data would you like to exchange between ResearcherID and ORCID?

ResearcherID

3. Use your iD: grant applications

The screenshot shows the ORCID website interface. On the left, there is a 'SIGN IN' section with fields for 'Email or iD' and 'Password', and a 'Sign in' button. To the right is a 'DON'T HAVE AN ID? REGISTER' section with fields for 'First name', 'Last name', 'Email', and 'Re-enter email', along with a 'Password' field and a 'Confirm password' field. Below these is a 'Default privacy for new works' section with icons for public, private, and locked. In the center, there is a vertical banner for 'ORCID CONNEX WITH YOUNG SCIENTISTS' and 'SciENCY'. Overlaid on the right is a blue 'Edit Personal Information' dialog box. This dialog has two sections: 'Required Information' and 'Optional Information'. The 'Required Information' section contains fields for 'First Name' (John), 'Last Name' (Tucker), 'Address 1' (Dreamland Rd #55), 'City' (Falls Church), 'State' (VA), 'Country' (USA), 'Postal/zip code' (22042), and 'Email' (tuckerj@ncbi.nlm.nih.gov). The 'Optional Information' section contains an 'ORCID' field with the value '0000-0003-0233-7734'. At the bottom of the dialog are 'Save' and 'Cancel' buttons. A green box on the left points to the 'SIGN IN' section with the text 'Link grant application to ORCID identifier'. Another green box at the bottom points to the 'ORCID' field in the dialog with the text 'Import information from ORCID record'.

New ORCID-integrated data citation tool

Posted May 13, 2013 by [Gudmundur Thorisson](#) & filed under [Uncategorized](#).

We are pleased to announce the beta launch of a new service for searching and claiming works in DataCite:

<http://datacite.labs.orcid-eu.org>

The tool enables users to search the [DataCite Metadata Store](#) for their works, and subsequently to add (or claim) those research outputs – including datasets, software, and other types – to their ORCID profile. This should increase the visibility of these research outputs, and will make it easier to use these data citations in applications that connect to the ORCID Registry – [ImpactStory](#) is one of several services already doing this.

The new service also provides formatted citations in several popular citation styles, supports COInS, links to related resources, and displays the attached

[Creative Commons license](#) where this information is available. In addition to datasets, the DataCite Metadata Store of course also contains many text documents from academic publishers and services such as [figshare](#) or [PeerJ](#)

The University of Hong Kong ORCID Record Creation

In October 2013, The University will create ORCID records for HKU faculty that now have a HKU ResearcherPage in The HKU Scholars Hub – usually staff with UGC status of A ~ I, sometimes O. These faculty could choose to opt-out and no ORCID will be created for them. If you already have an ORCID record, please click “Provide Existing ORCID” to allow us to associate your HKU ResearcherPage with your ORCID identifier.

If you prefer to manually create your own ORCID record, you may click on, “Go to ORCID, Manually Create”. After you do so, could you please return to this page, and click on “Provide Existing ORCID”, and input your new ORCID iD there.

Other HKU faculty and students wishing an ORCID record can also go to ORCID and manually create one for themselves.

Please note that publishers have begun asking for ORCID identifiers during the manuscript submission process, and there are several benefits to getting an ORCID iD, which will follow you throughout your scholarly career. For more information visit <http://hub.hku.hk/orcid/about.jsp>.

[Provide Existing ORCID](#)

[Opt-Out of ORCID](#)

[Go to ORCID. Manually Create](#)

(You will be prompted for your HKU Portal username/pin with a simple form to complete the process)

212 publications indexed in the Hub. Of these:

Web of Science: [83](#) are found in WoS, with 1857 citations
PubMed: [106](#) are found in PubMed, with 260 citations
CiteULike: [20](#) are found in CiteULike, of which 4 bookmarked.
F1000: [4](#) are found in F1000.

All bibliometric sources have limitations. Web of Science covers a small number of journals comparatively, so numbers are low. Scopus covers more journals but only starts from 1996. Other sources similarly have their own limitations.

Article: Gabapentin: A multimodal perioperative drug?

Basic View Metadata View XML View

Title	Gabapentin: A multimodal perioperative drug?
Authors	Kong, VKF ¹ ● Irwin, MG ¹ ●
Issue Date	2007
Publisher	Oxford University Press. The Journal's web site is located at http://bj.oxfordjournals.org/
Citation	British Journal Of Anaesthesia, 2007, v. 99 n. 6, p. 775-786 [How to Cite?] DOI: http://dx.doi.org/10.1093/bja/aem316

Abstract Gabapentin is a second generation anticonvulsant that is effective in the treatment of chronic neuropathic pain. It was not, until recently, thought to be useful in acute perioperative conditions. However, a growing body of evidence suggests that perioperative administration is efficacious for postoperative analgesia, preoperative anxiolysis, attenuation of the haemodynamic response to laryngoscopy and intubation, and preventing chronic post-surgical pain, postoperative nausea and vomiting, and delirium. This article reviews the clinical trial data describing the efficacy and safety of gabapentin in the setting of perioperative anaesthetic management. © The Board of Management and Trustees of the British Journal of Anaesthesia 2007.
