**EXECUTIVE SUMMARY**

Becky P.Y. Loo is Professor of Geography (Professor since 07/2009) at the University of Hong Kong. She is the Director of the Institute of Transport Studies and an Associate Dean of the Graduate School of the University of Hong Kong. An outline of her major interests and achievements in research, teaching, and administration and services is provided below.

**I) RESEARCH**

Becky's current research interests are transportation, e-technologies and society. In particular, she is interested in applying spatial analysis, surveys and statistical methods in analyzing pertinent issues related to sustainable transportation. Key issues that she has been tackling include carbon dioxide emissions from transport sources, regional transport infrastructure (including airports, ports and railways) and development, transit-oriented development and walkable communities, and road safety. In addition, she is conducting research on the pervasive effects of e-technologies (defined as microelectronics, informatics and telecommunications) on society.

Becky is Founding Editor-in-Chief of *Travel Behaviour and Society* (Elsevier), Associate Editor of the *Journal of Transport Geography* (Elsevier; 2014 IF: 2.650) and *Transportmetrica A: Transport Science* (Taylor and Francis; IF: 1.333). She is also on the Editorial Boards of the *International Journal of Sustainable Transportation* (Taylor and Francis; IF: 2.548), *Journal of Urban Technology* (Routledge; IF: 0.978), *International Journal of Shipping and Transport Logistics* (Inderscience; IF: 0.862), and *Geographical Research 地理研究* (Chinese Academy of Sciences, CAS; CSSCI). In 2006, she was awarded the Outstanding Young Researcher by the University of Hong Kong. In 2011, she was part of the winning team of the Most Outstanding Community Partnership Award by the Hong Kong Special Administrative Region (SAR) Government. She has over 240 research outputs (including eight books and 76 research journal articles, excluding Editorials and Book Reviews) and obtained more than HK\$10.3 million and HK\$13.0 million of research grants as the Principle Investigator (PI) and PI/Co-investigator respectively both locally and overseas. She has received regular invitations to share her research findings in Keynote and Plenary speeches at major international conferences.

Becky is a panel member of the Advanced Grants of the European Research Council (ERC). She has also served as an invited Grant Application Reviewer for the Chilean Government National Fund for Scientific & Technological Development (FONDECYT), the Social Sciences and Humanities, Research Council of Canada (SSHRC), National Science Foundation (NSF), USA and the Research Grants Council (RGC), Hong Kong. She has received visiting appointments at Griffith University (Australia), Pontificia Universidad Catolica de Chile, Chile (Pontifical Catholic University of Chile, UC or PUC), the University of Birmingham, UK (as a Distinguished Visiting Fellow), the University of Montreal, Canada, and the University of Oxford, UK (as a Distinguished Visiting Scholar, DVS).

## II) TEACHING

Becky's teaching philosophy is "Research informs teaching. Teaching inspires research". With this teaching philosophy, she sees University teaching as more than knowledge and skill transfers. It is a transfer of a researcher's quest for new knowledge, scientific and logical thinking, and passion to contribute to the scientific community and beyond. In view of her outstanding teaching achievements, she was awarded the Outstanding Teaching Award 2008 by the University of Hong Kong. She teaches courses both at the undergraduate and postgraduates levels. Becky plays an active role in the education reforms of Hong Kong by advising the Hong Kong SAR Government both on the Junior and Senior Secondary Geography curricula and contributing to the development of the Common Core Curriculum at the University of Hong Kong. She has supervised 12 research postgraduates (including five PhD and six MPh graduates) and over 35 taught Master dissertations.

## III) ADMINISTRATION AND SERVICES

Becky's distinguished services to the local and international professional community include serving as International Vice-President of the Chartered Institute of Logistics and Transport International (CILT International), Honorary Secretary of the Hong Kong Society for Transportation Studies (HKSTS), and Vice-Chair of the Commission on Transport and Geography of the International Geographical Union (IGU). Her current services to the Hong Kong SAR Government include serving on the Air Transport Licensing Authority (ATLA), the Road Safety Council, the Transport Advisory Committee, the Logistics Industry Training Advisory Committee of the Qualifications Framework, the Road Safety Research Committee and the Harbourfront Commission. She also serves on the Board of Directors of the Ocean Park Corporation (OPC) and is a member of the Trustee of the Ocean Park Conservation Foundation (OPCF).

At the University of Hong Kong, her current services include being Associate Dean of the Graduate School, Director of the Institute of Transport Studies, Programme Director of the Master of Arts in Transport Policy and Planning (MATPP) programme, and a member of Common Core Curriculum Committee. She has formerly been Associate Dean of the Faculty of Social Sciences, President of CILT Hong Kong, Chair of IGU Hong Kong Section, and Deputy-Chair of the Human Research Ethics Committee for Non-clinical Faculties (HRECNCf).

**I.11) PRIZES AND AWARDS, AND OTHERS**

---

**Details**

---

**Griffith University Short Term Visiting Research Fellowship 2015**

- The Fellowship supports an invitation for me to visit the Urban Research program in 2015 on the theme of "Active Transport, the Elderly and Quality of Life".

---

**The University of Birmingham Institute of Advanced Study (IAS) Distinguished Visiting Fellowship 2015**

- The Fellowship supports an invitation for me to visit the University of Birmingham as a Distinguished Visiting Fellow (DVF) on the theme of "Infrastructure and Urban Transformation".

---

**The University of Oxford Fellowship 2013**

- The Fellowship is part of the scheme of the Association of Commonwealth Universities (ACU) Titular Fellowships. It is a prestigious and competitive award to support staff from member institutions to spend time in another member institution outside their own country. I visited as a Distinguished Visiting Scholar (DVS) at the University of Oxford on a joint research project with Professor Banister entitled "Sustainable Mobility Experiences and Lessons".

---

**The Most Outstanding Community Partnership Award 2011**

- The award honours people who have achieved distinction in health promotion in Hong Kong. Achievement is recognized through excellence in health promotion initiatives and impact on public health promotion. Our project titled "Development of an Integrated Traffic Injury Database in Kwai Tsing" (Project No. 21070504) supported by the Health Care and Promotion Fund was cited by the Panel as contributing greatly to advancing health promotion in Hong Kong. The team members are C.B. Chow (PI), J.T.H. Kwong, M. Leung, A.S.F. Lai and myself. The Award was presented at the Health Promotion Symposium 2011.
